

SHASHANK MALIK

Mulesoft Developer and Data Integration Specialist with 10+ years of experience in Mule ESB, Anypoint Platform, BI development and building seamless integrations between MuleSoft and Salesforce Marketing Cloud (SFMC)

SKILLS

- Mulesoft Anypoint Platform: API Manager, Design center, Anypoint Exchange, Runtime Manager, RAML, API Policies, Creating client applications, Cloudhub logs.
- Connectors: HTTP Request/Listener, SFMC, Salesforce, FTP, SFTP, Amazon S3, Database, Firebase.
- Web server: HTTP, REST, SOAP, XML, JSON
- CI/CD: Maven, Jenkins, Git, GitLab, Bitbucket, Azure
- Tools: Anypoint Studio, Postman, Git Bash, Jira, Microsoft SQL Server Management Studio, WinMerge, Visual Studio Code
- Anypoint Studio: Dataweave, Batch Processing, Error Handling, Choice router, Scatter Gather, Logger, Munits, APIKit Router, Secure Properties using Encryption, Debugging, YAML, OAuth 2.0

EXPERIENCE

SHA256X LABS (Self Startup), New Delhi — React Native / Integration Developer

July 2024 - Present

- Developed and integrated data-driven mobile applications using React Native and JavaScript.
- Designed and consumed RESTful APIs to enable seamless data exchange between frontend and Firebase backend.
- Collaborated on API contract design, validation, and implementation to ensure reliable system integration.
- Implemented robust client-side data transformation, validation, and error handling mechanisms.
- Troubleshoot and resolved data synchronization and integration issues between mobile applications and backend services.
- Optimized API calls and data handling to improve application performance and reduce costs.
- Managed version control using Git in an Agile development environment.

Vigorate Digital Solutions, Toronto — Salesforce Marketing Cloud Intelligence Developer

October 2021 – January 2023

- Led the design and development of automated customer journeys in Salesforce Marketing Cloud
- Built and optimized integrations between external databases and SFMC using MuleSoft and SQL for real-time and batch data synchronization.
- Conducted discovery sessions to identify integration points & design data flow architectures.
- Developed functional requirements and technical solutions ensuring scalability & performance.
- Implemented marketing automation standards and best practices across SFMC platforms.
- Served as Subject Matter Expert for digital communication channels, data flows, and integration architecture.
- Provided regular technical updates to stakeholders and proactively managed project risks and timelines.

HCL Technologies, Noida — MuleSoft Integration Developer / Data Specialist

January 2019 – December 2019

- Designed and implemented MuleSoft integrations to enable seamless data flow between systems and Salesforce Marketing Cloud (SFMC).
- Developed API-led integration solutions and data transformation processes.
- Performed complex data analysis, statistical validation, and quality assurance for integration projects.

- Built and maintained BI dashboards and reports to monitor integration performance and business metrics.
- Automated data processing and reporting workflows, significantly reducing manual effort.
- Collaborated with cross-functional teams to translate business requirements into scalable integration solutions.

Microweb Systems, Noida — Senior Data Analyst / Integration Specialist

June 2015 – December 2018

- Developed complex SQL queries for data extraction, transformation, and loading (ETL) processes.
- Optimized data collection and integration workflows to enhance efficiency and data accuracy.
- Created interactive dashboards and visualizations using Tableau and Excel to support integration monitoring.
- Designed and generated automated reports using R and R Markdown for data-driven insights.
- Applied data analysis and design thinking to improve reporting dashboards and user experience.
- Utilized Tidyverse and other R packages for advanced data manipulation and integration support.

Pc Tech Resolve, New Delhi — Data Analyst

June 2012 – May 2015

- Developed and executed SQL queries for data retrieval, updates, and database management.
- Managed and updated database content using SAP and Microsoft Access.
- Automated data publishing and webpage updates using SeleniumHQ and spreadsheet integrations.
- Analyzed revenue and margin projections using database-driven insights.
- Identified data requirements and implemented solutions to support business reporting needs.

EDUCATION

Conestoga College, Kitchener(ON) — Enterprise Content Management

January 2019 - April 2021

Data Flow (Power BI, Power Automation), UX/UI (Wireframes, Prototypes), Collaborative Productivity (Requirement Analysis, Business Value), Client Communication (RFP), Collaborative Environment Process (Business Process Analysis, Audit, Risk Analysis)

Amity School Of Engineering & Technology, Delhi — Computer Science & Engineering

July 2008 - June 2012

Data Structure & Algorithms, Database Management Systems (DBMS), Object Oriented Programming, Computer Networks, Unix/Linux, Software Engineering, Compiler Design, Design and Analysis of Algorithms, Web Technologies, Data Warehousing & Data Mining
